

Why is GHK-Cu Considered the Super Peptide?

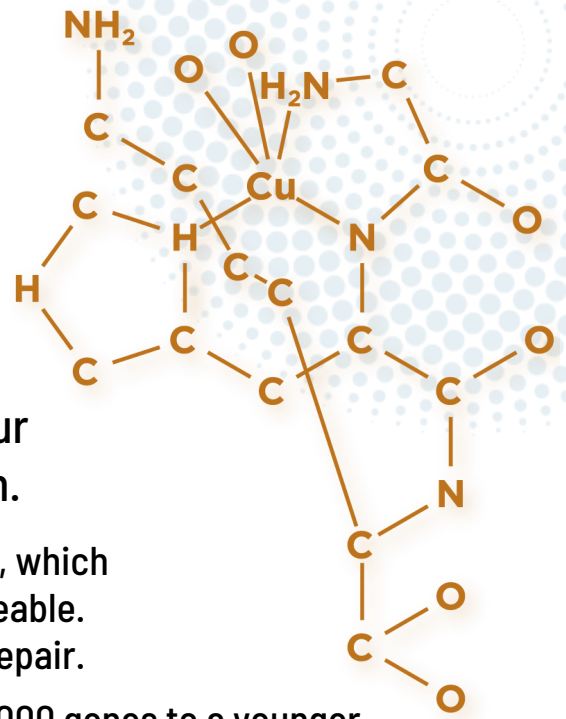

Because it is the secret weapon in regenerative health!

GHK-Cu is your internal communication system. It acts like a telephone to communicate with your old stem cells and tells them to turn young again.

These newly activated younger stem cells are pluripotent, which means they are the only cells in your body that are changeable. They can change into whatever cell your body needs for repair.

In fact, within 24 hours, GHK-Cu Copper Peptide resets 4,000 genes to a younger, healthier state – turning your old cells young again.

Even if you don't immediately feel the effects, rest assured your army of stem cells is now hard at work repairing your most critical issues first before moving on to something you do feel.

SKIN & HAIR

- Tightens loose skin and thicken older skin
- Reduces fine lines and depth of wrinkles
- Increases hair growth and thickness
- Accelerates wound healing

LUNG PROTECTION

- Tops the list for chronic pulmonary issues
- Restores healthy function in lung cells
- Protects lung cells from damage

ANTI-FAST GROWING CELLS

- Tops the list to combat Fast Growing COLON cells
- Resets the PROGRAMMED CELL DEATH for aging cells
- Inhibites NFKB p65 which promotes fast growing cells
- Repaires damaged cells (47 genes up, 5 genes down)
- Resets 84 genes to inhibit fast growing cells

BRAIN & NERVES

- Resets human genes important to proper neuron function with 408 UP and 230 DOWN
- Induces strong Anti-Stress & Anti-Anger
- Induces Anti-Discomfort Activity
- Is used for damaged spinal cords

ANTIOXIDANT POWER

- Increases SOD1
- Suppresses NFKB, a primary cause of aging
- Completely blocks oxidation
